

Andrew Dresel-Kurtz

Game Generalist & Designer

I am a game designer with a wide and adaptable skill set. I strive to create fun and thought-provoking game experiences via quick prototyping, leading brainstorming sessions, with constant team collaboration and communication

Experience

Lead Programmer | B-A-R-G-U-Z-I-N | 2026-Present

- Lead programming development for upcoming indie survival horror game
- Developed various gameplay systems, animation prototypes, and lead github related teamwork sessions
